For: METHOD OF CLEANING A CVD )  
DEVICE )

**LETTER RE SUPPLEMENTAL DECLARATION**

Assistant Commissioner for Patents  
Washington, D.C. 20231

Sir:

On January 14, 2002, the above-identified patent application was filed with the U.S. Patent and Trademark Office, together with an executed Declaration.

The executed Declaration had an incorrect priority application number in it. Specifically, the priority application is Application No. 2001-012600, filed in Japan on January 22, 2001, not Application No. 2000-012600, as recited in the original Declaration.

In addition, the specification of the present application was inadvertently changed after execution of the original Declaration. Specifically, the original application executed by the inventor made reference to "Japanese Patent Application No. 2000-012600" in paragraph 0001. After execution of the original Declaration by the inventor, the application was corrected to make reference to "Japanese Patent Application No. 2001-012600".

Accordingly, in view of the fact that the original Declaration had an incorrect application number, and further in view of the fact that the original application was inadvertently modified slightly after execution of the Declaration filed with the application, Applicant hereby submits a Supplemental Declaration.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.
